Appendix I: Adding Title and Label to a Graph

A graph is not complete without a title and axes labels. This tutorial shows you how to add a title to your graph and label the axes in a few easy steps.

1. Right click the graph and select Chart Options.

2. Click the title tab.

3. Type the chart title in the Chart title box.

4. Type the labels for the y and x axes in the appropriate fields.
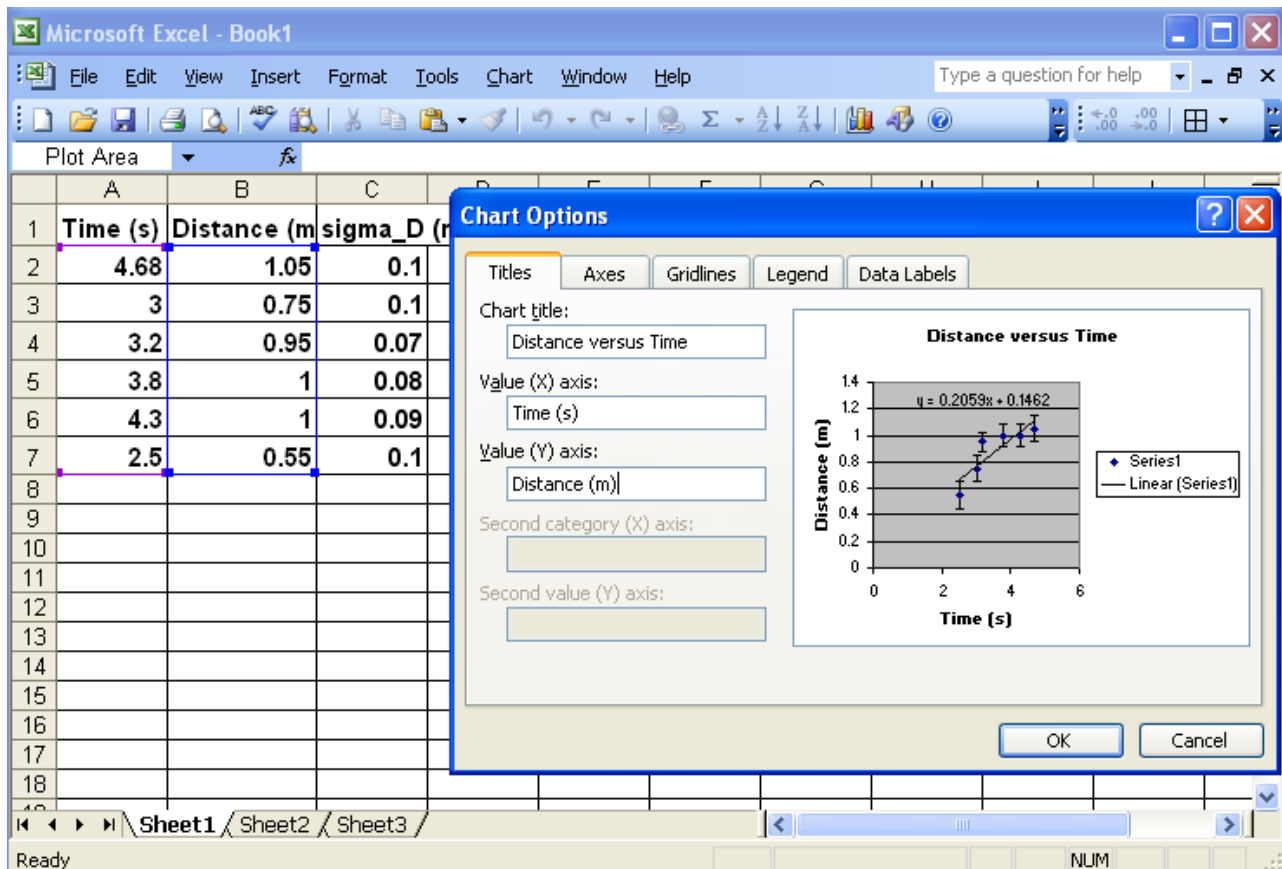

5. Click OK.

Figure 1: Adding a chart title and axes labels
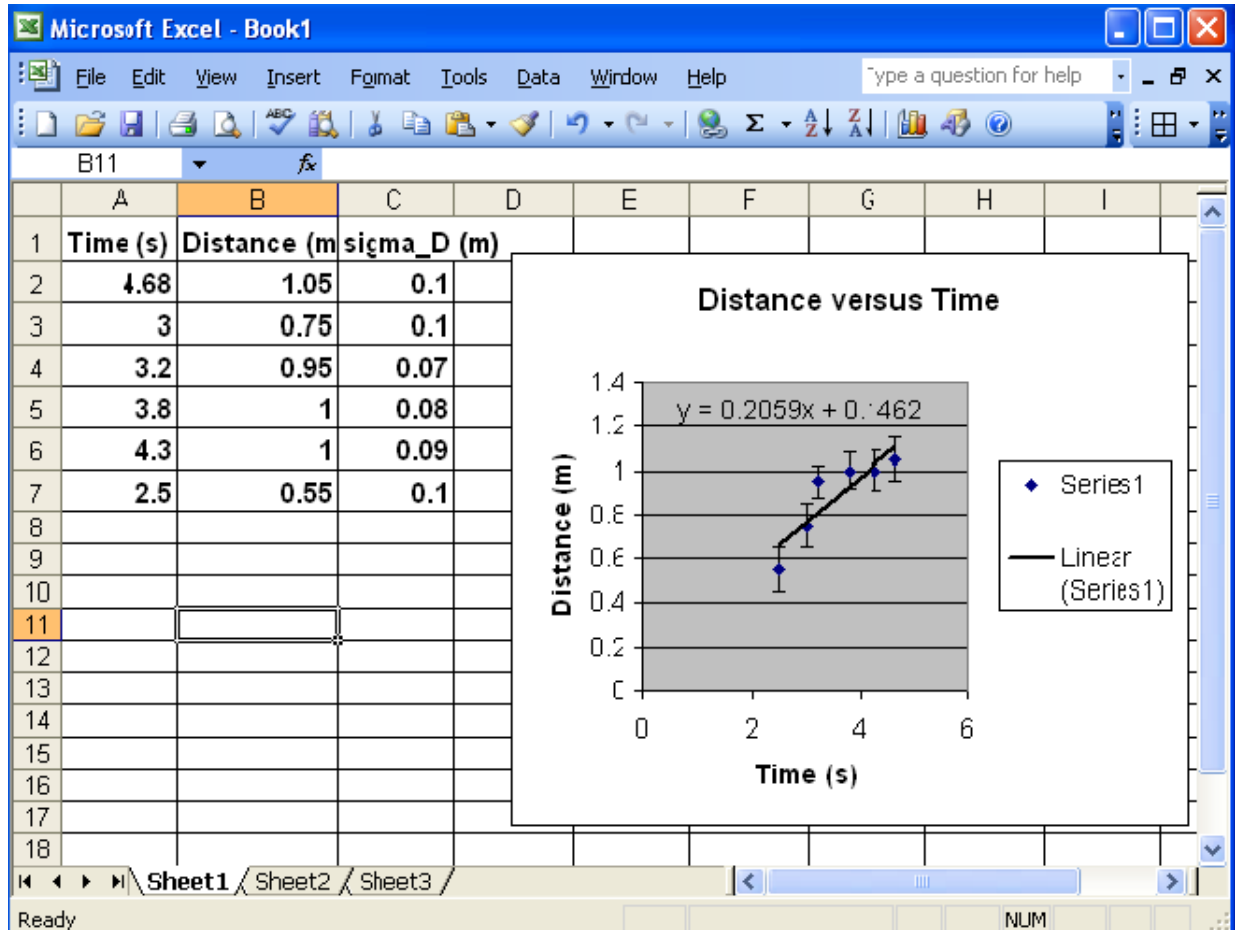

After you add a chart title and axes labels, your graph should look like Fig. 2.
