

TITLE V. Article 2. Standards for Student Conduct: Student Responsibilities

The University is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life. <http://conduct.sfsu.edu/standards>.

I have read the Standards for Student Conduct and am committed to creating a culture of respect and civility where all members of the community share a commitment to academic freedom, open inquiry and the pursuit of knowledge.

I will create and maintain an environment where all persons are treated with respect, dignity, and fairness. I will honor and respect the value and integrity of each person and to conduct myself accordingly.

I will be on time for all aspects of this class including discussion, lab, and lecture. I will contribute to the collaborative class environment by staying on task, working with my peers and instructors, and asking questions.
